DR. WARREN'S
SARSAPARILLA, TOMATO AND WILD CHERRY
PHYSICAL BITTERS,
At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved as Physic for a safe, speedy, and effectual remedy for Scrofulous, Mercurial and Cutaneous Diseases; Jaundice; Indigestion; Dyspepsia; Bilious disorders; Liver Complaints; Costive Bowels; Weak and Sore Stomach; Ulcers and running Sores; Swelling of the Limbs; Pain in the Bones; Tumors in the Breast; Rheumatic affections; Sickness, Dizziness, Sick Headache; Eruptions on the face or body; Consumptive cases; King's Evil; Chronic Catarrh; Impotency; debility; lassitude; dizziness; sallow complexion; and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired

The extract here presented is prepared after directions given by the celebrated Dr Warren, whose name it bears, and it will be found superior to any preparation of the kind ever in use. It is highly concentrated, entirely vegetable, and very finely flavored to be tasteful. This change which is positive in the condition and tendency of the system to speedy and permanent

As a Spring Medicine for purifying the blood—strengthening the stomach and bowels—checking all consumptive tendency, this Sarsaparilla, Tomato and Wild Cherry Bitters are without a competitor.

Prepared and sold by DAVID P. BALLARD, at the Medicine depot, 4 Republican Hall, 120 Washington street. Sold also by General Agency the Boston Medicine Saloon of Dr. Halsey, No. 10 Hanover, Dr. Lee's Purifying and [illegible] Pills, Dr. Spurzheim's Wild Cherry Bitters, Dr. Brandreth's Pills, Dr. Swaim's Panacea, Wistar's Balsam of Wild Cherry, Dr. Sherman's Lozenges, Dr. Sanford's Liver Invigorator, Brandreth's Vegetable Universal Pills, Dr.

Whig and Courier.

John S. Sayward,—Editor.

MONDAY, APRIL, 3, 1848.

Sargent's Life of Henry Clay.

We have received from the publishers, Messrs Greeley & McElrath of New York, a new edition of Sargent's Life of Henry Clay, revised, enlarged and brought down to the year 1848. This work is now published in a stout pamphlet of 120 pages, printed in fine style and in every way a beautiful book happily calculated for popular circulation, and is afforded at the small sum of twenty five cents Every American, especially if he is not already the owner of a good life of this eminent Statesman, should purchase and read this work It will do him good Mr Clay's able makes a part and an important part of the history of our country His mind is stamped upon its legislation His fame is written in the State papers he has produced and in the arguments he has framed, and the specimens of glowing eloquence of which he is the author It is refreshing and invigorating to study the life of such a man, and this book comes opportunely to aid this largely among the people, and we wish they may avail themselves of the opportunity

☞ It was a bold step taken by our Police Court, two of three years since, when Mr Harmon was at the highest point, in sentencing a large number of the receivers and teachers of that doctrine to the House of Correction It proved in the end satisfactory as it effectually put a stop to the extravagancies of what were called Miller's meetings and made the whole class, in this vicinity, exceedingly shy, and it is understood that it also resulted in effecting a lasting reformation in the habits of some of them by turning their attention to indigenous pursuits, and to the care of their families

It has been suggested how wisely we will not now undertake to determine, that some such summary process applied in our city to some of the offenders against the law, would result to the advantage of the community and perhaps find in the reformation of the evil disposed, or at least serve as a warning to those who are tempted to evil

☞ Mr Eddy, the agent of the Telegraph Company, for erecting the wires between Port and and Calais invites the attendance of those of our citizens who are interested in the matter, and who feel disposed to take stock in this enterprise, to meet him at the Aldermen's Room at seven o'clock this evening, when he will be happy to lay his plans before them The cost of putting the wires in working order between the two points named will be nearly fifty thousand dollars, and the amount required of Bangor, will be, probably, not far from twelve thousand dollars It is hoped the subject will engage the attention of our people and that there will be a large meeting this evening

Decrease of the Army.

"Chapparal, the Mexican correspondent of the N O Crescent, complains of the slow process of recruiting, while they are "burying nearly a regiment a month in Mexico He says in regard to Gen Scott

"There is no doubt but the recall of General Scott, has emboldened some of these Mexican States to drop the peace garb they wore a short time since—they considered him unconcible and I seriously believe the terror of his name was worth a good half dozen of regiments to us—Twas said day to the army in Mexico, that which brought him recall

LITTELL'S LIVING AGE, No 203

With this number commences a new volume of this excellent work, and it is a favorable time for subscribing

It is a good work and is more likely to improve than degenerate

The present number will be very agreeable to all those who are interested in the subject of Mesmerism

Messrs Geo R Smith & Co are agents in this City

☞ Senator Niles has made a speech upon the Ten Regiment bill which does not appear to be very agreeable to his party He has told them some truths relative to a National debt, and the ruinous effects of paying the expenses of the government by loans, and the evils of neglecting the home market, which will be well for Mr Polk and administration to examine and remedy

☞ The Portland Umpire states that the whole of the stock of the Kennebec and Androscoggin Rail Road is taken up, about $200,000 was taken in Portland the last week, and the probability is that the road will be completed by next fall

☞ The Skowhegan Press states that the dead body of John Wilson, formerly of Nova Scotia, was found a few days since, at the foot of Moosehead Lake He obtained grog at "Tom Grant's shanty, and by intoxication died The funeral sermon was an effective Temperance lecture, as it should have been, on such an occasion

☞ The New York Herald says, that in three and a quarter hours after the arrival of the mails of the steamer at the N Y Post Office, 10,300 letters were sorted, weighed, marked, distributed and delivered

☞ The report which has been circulated that a portion of the manuscripts of the late John Quincy Adams were to be published by his son, is pronounced by that son to be an entire fiction

☞ The election of State officers in Connecticut takes place this day The canvass has been spirited.

☞ Hon W B S Moore will please accept our thanks for his attentions in forwarding to us public documents

☞ Three Penobscot salmon were served up and washed down at Philadelphia!

☞ The Waldo people are putting wide awake on the subject of rail roads.

☞ The ice has left the Kennebec River up to the wharves in Augusta, and the steamer will soon take its departure.

☞ The City Council will meet this afternoon at two o'clock

☞ Our teams are leaving the lumber in the swamps, and the spring time has come

To the Christians and good People of the City of Bangor.

It has become pretty evident that a great overturn in the world is at hand listeners hear a sound in unison from the four winds of heaven. This overturn, like the first advent of Christ, will be—

Day, to the children of the day,
But night, eternal night to all the sons of darkness.

Such as are on their watch-tower, waiting for the rising light, will delight in its beams, while all who are suffocated with its dawn, or pleased with its toys, will be offended with its brightness, and sink into deeper sleep.

The means to which the hand of God will be seen, are contained in a well organized system of Religious Education A system where Religion is taught as a science, with suitable means of protection, and consistent in all its parts—We have such institutions, now, where Religion is taught occasionally, but none where it is the avowed object, as the true basis of all science and its only safeguard That all sciences as dangerous, if not based on Religion, is evident to the well informed and it is equally evident that all scientific or Religious establishments, disconnected with manual labor, must be immoral in their tendency, as the author of criminal indolence To labor, to be consistent, must be regular, and of a salutary, and a matter of duty and interest, and binding, not only on all the students, but all the teachers For want of this consistency manual labor Schools have failed

A good location can now be had at South Levant, about eight miles from the centre of your city, on very reasonable terms, where fifty or a hundred students may be employed to good advantage the coming season The premises are owned by Esq. Wing, consisting of two good saw mills, a grain factory, a shingle machine, a good house and barn, a store and a number of other large and small buildings with 2d acres of good land The whole can be had for five or six thousand dollars An an object of speculation it is good, but especially as a good as a chance for setting up a Manual labor Christian School, where pious young men may go and labor and study without being defiled with indolence, or troubled with the profane and vulgar, or indolent

The school can be made to pay its own way, paying a fair rent, and bearing its own expense, it only needs the means Will not some one or more gentlemen, of your city, who are friends of God and man, who see the absolute need of reform in our country, and that such a system is the most efficient means of promoting it, and who, withall, have the means in their own hands of purchasing these premises for this purpose, respond to this call?

Ask not who has made this proposal, but look at the merits of the case 'A Christian land with not a Christian School' Let Bangor begin the great work Let them be the first to seize the river that will replace the work, and turn out the Man of Sin

One of your worthy citizens, not long since, remarked to the author that he had become too degraded in the public mind to undertake, or do any thing in favor of such a work Do the sacrifice be obliged that you have risen who know that God takes things which are nought, with which to work; that the excellence of the glory may be his own

Your Brother and Friend
In the common faith,
S BAKER

For the Whig and Courier

'Lead us not into Temptation.

Mr Editor

I was pleased with one suggestion in the communication of Mr W Goodale, in your paper of March 21st, on raising Fruit trees It is on the morality of parents raising fruit to deter their offspring and those under their care from taking what fruit belonging to others, He says, we are told that 'tis no use to set out trees,—the boys will steal the apples if we do

'Thus we know is a great evil, but I fear it will always continue, until our lands are more common with us than they are at present I never knew a boy to steal fruit whose father raised it himself And I would say to all parents who own land and boys, if you wish to make them honest, set out trees, and let them see that it costs something to raise fruit' All this is good, if we take a home and practice accordingly

Boys are not expected to be philosophers and reason from cause to effect, but to act more from the impulse of the moment and spur of appetite They would think this fruit is desirable It grows out of the earth for the gratification of man Why should we be deprived of a share, and have a perpetual fast because we have none growing at home The owners of these yards manage that all the apples fall to themselves Our Father in heaven is not partial in distributing his favors He sends rain and sunshine to us all Human we breathe,—his water we drink, and upon his bounty we subsist And as he has caused these trees to grow and bear fruit, under which there are other crops growing for the rich owners, I must have some of this fruit. Thus a resolution is formed, on this fallacious reasoning, and action follows Now is it not desirable that a better state of morals should prevail, and is it not practicable? I think it is

Within a few years many have given attention to fruit-growing, and should all who have hitherto neglected it join with the multitude to do well, much would be accomplished in family comfort and morals Parents do not lack affection for their offspring They are willing to spend and be spent for their best good Soon they contrive to live only in their children—And as good morals and correct habits are the best legacy, let us study the best means If Mr Goodale's observation be correct, that the never knew a boy steal fruit whose father raised it, then let every man who has hitherto neglected it, who owns four square rods of land, plant out a few fruit trees for the happiness of his family and friends, and the promotion of morality—Let the boys have one when convenient Trees may be planted in the north part of the garden to prevent shading garden vegetables, under which may be a row of Gooseberry or Currant bushes, or Rhubarb, and not diminish the profits.

As fruit trees will soon be in the market, let every one awake up to duty and promote his own best interest and that of his family, and abate at least one vice in his neighborhood

☞ The Thomaston Gazette has put forth a riddle for the Amusement Boasts to solve.

Awake!

Temperance men of Bangor, are you aware that your cause is on the decline? If you are not, and wish to be convinced of the fact, take your stand on Central St., and see with what impunity the dealers in ardent spirits send forth their desolating flood of liquid rum—see at all hours of the day, and perhaps of the night, those cargoes of contraband desolation soon forth to set on fire the brains of their unhappy victims—see the victim himself,—hearing in his tottering step, and haggard looks, the indubitable signs of having turned long at the wine

I do not ask for the remedy That is at hand if you will but awake to the necessity of using one That necessity I would urge upon you

MARK ANON

Rail Road Meeting.

At a meeting held at the schoolhouse North Vassalboro March 6, 1848 on motion, Moses Taber was called to the chair, and John Mower chosen Secretary John Lang being called upon, addressed the meeting at length On motion of H Weeks Esq, a committee of three was appointed to draft Resolutions expressive of the sense of the meeting C A Webber, Alton Pope Goodwin H Getchell, were chosen a committee

On motion, Voted That a committee of 6 from from Vassalboro, and 4 from Winslow to obtain subscriptions, and attend the survey of the engineers from Augusta to the valley of the Sebasticook, through said towns, on two different routes, and make all necessary amendments

The following gentlemen were appointed said Committee

Edward Fry, John G Hall, C A Webber Chas McFadden, John Mower, William Bassett Prince Hopkins, Edmund Getchell, Robert Ayer Clark Drummond

Voted, That the Committee have power to fill all vacancies

March 15th, met according to adjournment and in the absence of the Secretary, Henry Weeks, Esq was chosen Secretary

Voted to add the names of Sewall C Robinson, and Joseph H Cole, to the Committee

Adjourned to meet at Winslow on Saturday evening at 7 o'clock

Saturday evening, met according to adjournment, and John Lang and Joseph Eaton addressed the meeting, showing the importance of immediate and energetic action

Voted to add the names of Joseph Eaton, Robert S Drummond and Amasa Dingley, Esq to the foregoing Committee

The following resolutions were then read, and unanimously adopted

Resolved, That the time has fully come, when a liberal policy in regard to Rail Roads, is for the best interest of all classes of our citizens, and that the connection by a chain of Rail Roads of the larger towns and cities of this State, would tend to benefit them and the State at large

Resolved, That we regard the Kennebec and Portland Rail Road as only the beginning of what the rest of the State demands And that the extension of this road from Augusta to Bangor is demanded by public convenience, and the interest of the tract of country through which the road would pass

Resolved, That the contemplated extension of the Portland and Kennebec Rail Road, from Augusta to the valley of the Sebasticook, on the east side of the Kennebec, for which extension a survey is about being made by the liberal policy of the Kennebec and Portland Rail Road, agreeable to our request, is the most direct and feasible route for the extension of the Kennebec and Portland Rail Road to Bangor

Resolved, That we feel a lively interest in the connection of the City of the East with our capital and the principal towns of the State, and as the first move in the enterprize, we pledge ourselves to use our best efforts for the construction of the road from Augusta to the valley of the Sebasticook, through the towns of Vassalboro and Winslow, and so on, to Bangor as soon as practicable

Resolved, That should the report of the Engineer prove favorable, measures forthwith be taken to ascertain the terms on which the right of way and fencing the same can be had, and also the amount of stock that can be obtained on the line of the proposed road

Resolved, That as soon as the survey of the Rail Road route from Augusta to the Sebasticook valley is completed, that the Committee now under appointment, call a meeting at some central place to best accommodate the inhabitants on the line of the road, and take measures to give general notice of the meeting and its objects

Voted to adjourn to meet at the calling of the Committee

Voted to publish the foregoing doings in the Augusta and Bangor papers

MOSES TABER, Chairman
JOHN MOWER, Secretary

Mr Sawyer of Ohio, whose propensity for "lining has given his name so wide a celebrity, gave notice in the House of Representatives, a few days ago, that he would ask leave, at an early day, to introduce a bill making certain "provisions respecting the Army in Mexico.

We suppose it is fair to presume that the "provisions provided for by his bill will be principally *sausages*—[Burlington Free Press

A SWIMMING OF THE HEAD, like every other disordered motion of the blood, is owing to corrupt and stagnant humors which, when floating in the general mass of the circulation, are the causes of headache giddiness, palpitation of the heart, and many other unpleasant symptoms, and when thrown upon the various parts of the body are the cause of every malady incident to man Wright's Indian Vegetable Pills are always certain to remove headache, giddiness, and every complaint, because they completely rid the body of all morbid humors and every thing that is opposed to health

Wright's Indian Vegetable Pills also aid and improve digestion, and therefore give health and vigor to the whole frame, as well as drive disease of every kind from the body

BEWARE OF COUNTERFEITS AND IMITATIONS! Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box

Chlorofarm Toothache Drops.

It is well known that "CHLOROFORM" has superseded (in a great measure) the use of Opium, and is always of pain and is now used by the best Surgeons and Dentists in preference A celebrated Chemist (and one of the first manufacturers of Chloroform,) has discovered that "Chloroform" with other simple ingredients, will instantly cure the TOOTHACHE. After testing it in many cases it has never failed to give relief, there is no possible danger in using it, as it will not injure the sound teeth a particle. All that is necessary in using these Drops, is to saturate with a bit of cotton or lint, and place in the cavity of the tooth. Relief will be immediate.

None genuine without the signature of Isaac S Pike on the wrapper. Sold at No. 19 Tremont Row, Boston.

For sale in Bangor by G. W. LADD. 3m sep 23

CHERRY PECTORAL,

Coughs, Colds, and Consumption
Sold in Bangor, at wholesale and retail, by
GEO W LADD.

This elegant and unquestionably excellent remedy has received the highest commendations of many medical colleges and schools of the United States, as well as the distinguished medical authorities of England, America &c.

BY THE LAST MAIL

One Day Later from Europe

The N Y Morning Star yesterday, says the Tribune, published an Extra, containing European intelligence extracted from a London paper of Saturday the 18th inst, which was brought to Liverpool by express, before the sailing of the Caledonia on that day By some accident, the paper did not reach that city till yesterday, which accounts for the late appearance of its news

CHANGES IN THE ENGLISH CABINET

Lord John Russell's resignation was positively decided on Saturday evening

Dispatches announcing his contemplated resignation were forwarded to Dublin, the intelligence appeared in the Dublin papers of Saturday, March 12.

Cabinet councils were held in Downing-st., on Saturday evening, and during the day Lord Palmerston held a confidence with Mr Bancroft, the U S. Minister.

The Cabinet it was understood, had under consideration important concessions to Ireland and a considerable extension of the elective franchise in the United Kingdom was talked of

Duncha Jarrold, immediately after his arrival at Paris, had an interview with Lamartine, who received him in the most cordial manner.

Important from Algeria.

Algiers proclaimed by the Duc D'Aumale part of the French Republic.

By the latest intelligence from Algeria, we are informed that on receipt of the astounding news from Paris, there was a tremendous excitement among the military of the city and immediate neighborhood

The 'Moniteur Algerien' of the 25th February, had an announcement from the Governor-General, the Duc d Aumale, of the news received from Paris. The Governor Gen | adds the following note

ALGIERS, Feb 27

The allegiance of the Duc D Aumale to the Republic, secures peace to Algeria, and removes those apprehensions of a colonial war which an opposite policy might have produced

Paris was perfectly tranquil on Friday afternoon

The successor of Prince Metternich had not been appointed

The governor Gen knowing the patriotism of all, adds nothing to the news Nothing can change, or affect our duties to France

H D ORLEANS.

Later from Mexico.

AUGUSTA, Ga., March 29

By an express from New Orleans, bearing date to the 23d inst, we learn the arrival at the Great Western from Mexico up to the 11th bringing nine days later news The Great Western left Vera Cruz on the 18th

The Free American of the 17th announces that Lt Allan of the 2d infantry was on the way to join his regiment in the interior

Santa Anna applied to Gen Twiggs for permission to pass through Vera Cruz, which was granted.

There was a number of resignations in the army since the armistice

The officers appointed to preside over the court of inquiry, reached the city of Mexico on the 15th inst

The North American of the 10th furnishes an account of a revolution in Guatemala against the government and its pacific intentions, and in favor of Santa Anna Caverna, it was supposed, was advanced to the Presidential chair, in place of the acting President Penny Pena

General Lane has returned to the United States

Fire at Amoskeag, N. H.

On Thursday last two cotton factories at Amoskeag were destroyed by fire They were the old factories at Goffstown They were insured for $50,000

☞ There is a rumor afloat that Mr Buchanan proposes to resign as Secretary of State, disliking the course pursued in the Trist correspondence

CONGRESS.

WASHINGTON, March 29, 1848

In the Senate Mr Allen, of Ohio, asked and obtained leave to introduce joint resolutions congratulating the people of France on the success of the recent revolution through which they had passed, and the establishment of a Republic &c., which were unanimously read and ordered to be printed

Mr Ashley, of Arkansas, agreeable to previous notice had and obtained leave to bring in a bill, which was read the first and second time, by unanimous consent and referred to the Committee on Military Affairs, it related to the defining the Law respecting Bounty lands so as to prevent the decision of the Comptroller of Pensions.

Mr Cass Chairman of the Committee on Military Affairs, moved to take up the bill relating to the adjustment of California claims, which was agreed to

Mr Hannegan Chairman of the Committee on Foreign Relations, moved that the Senate go into Executive Session, which was agreed to, and the doors were closed After some time spent therein, the doors were opened, and the Senate adjourned

In the House—

The Speaker announced the first thing in order to be reports from Committees

Several bills were then reported, which were severally read and referred to the Committee of the Whole

After the morning business had been gone through with, on motion, the House resolved itself into a Committee of the Whole on the state of the Union, and proceeded to the consideration of the bill in favor of refunding money advanced to Volunteers—which gave rise to considerable debate pro and con—in which several members, participated

Mr Lilley, of Ohio made a long speech in favor of the Wilmot Proviso Mr L was elected as an Independent Democrat. He was opposed to all acquisition of territory, unless Slavery should be excluded He went on to use various arguments to strengthen the position he has advanced, many of which had been previously advanced in some shape or other

The discussion consumed the remainder of the sitting and the greater part of the day, when, without coming to a decision, the Committee rose, reported progress, and the House adjourned

WASHINGTON, March 30.

The Senate was in secret session five hours, and committed to prune, Mr Nugent, one of the New York Herald correspondents, for refusing to tell who furnished a copy of the treaty, &c, for publication in said paper

Hon Mr Black, of S C, is rapidly declining, and is not expected to survive many hours.

Washington, March 30, 1848,

In the Senate—

The main subject of interest was Mr Allen's resolution of congratulation with France

In the House—

Mr Vinton of Ohio moved that the House concur in the amendments to the Loan bill passed by the Senate The amendments in question were accordingly concurred.

Finally the committee rose and reported the bill with amendments

Mr Pollock of Penn moved to recommit the bill to the Committee on Military affairs, with instructions This motion was agreed to.

Correspondence of the Courier and Enquirer

WASHINGTON, March 29, 1848

The President has sent to the Senate the following diplomatic nominations, which will be acted upon in a day or two—

Dr J C Mattis, now secretary of Legation in Paris, to be Charge d Affaires to Rome

John Appleton, of Maine, now chief clerk in the State Department, to be Charge d'Affaires to Constantinople

Elisha F Poe of Ky., to be Charge d Affaires to Bolivia

Washington Livingston, now appointed as N Y Custom House, to be Charge d'Affaires to Ecuador

It is also said that Mr Livingston will decline the which puts the place which is offered to Mr Benton, the present assistant editor of the Union.

"What's the matter, Sammy—want a sold to bid?"

"No I got the holy colic—that's what I want!"

The Ice—The Freshet.

No little anxiety has been felt in our city for a few days past, relative to the ice and the freshet Some persons have removed their salt and other goods from the lower stories of their stores. The ice from down river has left within five miles of the city The ice is then unbroken up to the city at Treat's falls, where it is jammed for a distance of about two miles, making a head water of perhaps ten or twelve feet The late warm and soft weather threatened to carry the ice out speedily, and a jam on the gravel bar below the city was feared The cold weather of yesterday has given a great check to the rise of the water and efforts were made yesterday to break up the ice below, so that to-day there is no cause of alarm It is supposed that a sufficient force might be organized, and the ice below the city removed in three days for five hundred dollars

The sum will probably be paid by the City, or by individuals, and men immediately employed in cutting away the ice

BEWARE OF COUNTERFEITS AND IMITATIONS.

The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry, in all the diseases for which it is recommended, during many cases after the skill of the best physicians was unavailing has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious substitutes, of similar name & appearance, for genuine Balsam. Some are called "Syrup of Wild Cherry," "Balsam of Spikenard," "Wild Cherry, Comfrey," &c. Another, "Wester's Balsam of Wild Cherry," misspelling the name, and forging certificates to resemble the true Balsam. "Dr Wistar's Balsam of Wild Cherry" is the only genuine! The rest merely imitate the name of the original, while they possess none of its virtues.

LOOK WELL TO THE MARKS OF THE GENUINE.

The genuine Balsam is put up in bottles with the words "Dr Wistar's Balsam of Wild Cherry, Philad," blown in the glass, each bottle bearing a label on the front with the signature of I. BUTTS, M. D.

This will be enveloped hereafter with a new wrapper, copyright secured, 1848, on which will always appear the written signature of "I BUTTS"

None genuine unless signed I. BUTTS on the wrapper

"ANCIENT Sacred Lyre or Cumberland Collection of Church music"

Being a selection from the most approved old Authors, together with several pieces never before published. For sale by
WILLIAM LEWIS
m28 No 3 Smith's Block

Winslow Glass Works, Camden Co., Millville Glass Works, Cumberland Co., N. J.

THESE WORKS comprise five factories with their appendages, of sufficient magnitude to make over 100,000 boxes of Window Glass annually, embracing every variety of size from 5-8ths 55-46

The proprietors are determined to leave no means untried to make their glass equal in all respects to the European Cylinder glass They have engaged the most skilful Blowers and Flatteners, and particular attention is paid to the assorting of the qualities

The Cartons are held to a strict responsibility, and for this purpose the glass warranted by them has their respective names branded on the boxes in which it is packed Purchasers having just cause of complaint, are requested to report them to the subscribers, with the names of the boxes complained of Strict attention will be paid to their communications and a remedy applied. Assurance will be opened for same over $100 with guaranteed rate, providing at places where we can draw for their amounts when due. An average credit of six months will be given, and instalments made consecutively by drafts drawn one month after date, so as to give the paper already taken in payment for it. All orders will be promptly attended to, addressed to

Patent Mill Wheels.

Tinbey's Patent
Two Vent Cast Iron Water Wheels,
—FOR—
SAW MILLS,
Invented by T. R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in Competition with all other popular
SAW MILL WHEELS
in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied, as possessing and combining *more Strength and Speed*, and giving a more *uniform and Steady Motion* "in and out of the cut" (and therefore not liable to break cranks,) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the "drift stuff" to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere.

We would also call the attention of Mill Owners and Operators to
Valentine's Patent
Reversing Centrifugal Water Wheel,
—FOR—
"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation those Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD, Esq., *Civil Engineer*.—Lowell, Mass who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is dressed with curved floats the camber depending upon the size and vent of the Wheel, each extending on for around the Wheel, that when the water arrives at the pit its pressure is so far expended that it falls very nearly clear from the Wheel. The Wheel is inclosed in a cylindrical wooden case or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it, providing the head gives in a fraction as fast as the back water. But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa, for as the head increases, the width of the jets should be proportionably decreased, so that the water may not have to waste, and not give its best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels, and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is less liable to need repairs, usually ensemible when they are needed, costs much less in the outlay, much more durable, and takes very much less room in a mill or shop—Simplicity of structure, durability of parts, economy of application and excellence of power are the grand points of recommendation for this Wheel.
ITHAMAR A. BEARD *Civil Engineer*."

* * All sizes of the above Wheels with all the LATEST and most IMPROVED patterns of
Mill Gearing, Machinery, &c.; Shingle, Clapboard, Sawing, Lath and Box Machines;
Steam Engines and Boilers,
with all kinds of
PAPER MACHINERY,
manufactured and furnished on the most favorable terms.

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph.

DEAR SIR—I have, myself, almost no occasion for your inestimable Pills. I have used them my six years, as occasion dictated; and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach. From habitual costiveness, and the voiding of nauseous and slimy stools, I am completely relieved. The multifarious symptoms of Dyspepsia, with which I was more too well acquainted, have so entirely passed away, that I hardly know what they were. Any use you can make of this, or a more full development of my case, is at your service.

Except in an obstetric case, your book (Family Physician) and Pills have been the only physician in my house for six years.

There are many of my friends around, and more and more, who call for your Pills as a family medicine, and for chronic cases. Yours truly,
Horatio Waldo.

New Britain, Conn., May 29th, 1846.

Sold in Boxes at twenty-five cents—and in packages at $1, in which is much saving of expense.
A. EMERSON, No. 4 Smith's Block,
Agent for Bangor and vicinity.

ACCOMMODATION.—Persons in any part of the U. S., where there is yet no agency, can have a family package sent them by Mail, free of postage, by enclosing $1, post paid, to Box 2321 Post Office, N. Y. City. Sandaw Feb 22.

The Great Remedy for Gonorrhea

GLEET, Stricture, and all analogous complaints, is DR. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union, during the last 40 years. His only reason for introducing the Paste in this public manner, is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr. D. most solemnly affirms, (that during his practice of forty years, this Paste has never, in one single instance, failed of effecting a cure in a few days, without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years, but after taking the Paste for a few days, the angry symptoms disappeared, and the patients were discharged, entirely cured.

If the unfortunate, instead of dragging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emasculated bodies and sallow countenances as we do at all the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr. PETER G. DOUGLASS, at his Office, No. 65 Union street, Boston, at $5 per box; where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted

Medicines sent to any part of the country.

Mutual Benefit Life Insurance COMPANY.

OFFICE No. 2 GRANITE BLOCK—
EAST MARKET SQUARE - - - BANGOR.

THE affairs of this Company are in the hands of business men favorably known to the community, who have permission to refer to the following gentlemen in Boston:

Hon. J. C. Rogers,	Sam'l A. Appleton, Esq.,
Hon. S. Fairbanks,	Messrs. J. E. Thayer & Bro
Rev. G. Shaw, Esq.,	Johnson Sewell & Co.;
and to the following Gentlemen in Bangor:	
Hon. Edward Kent,	Charles Hayward,
James Crosby,	Joseph Bryant,
Gen. S. F. Strickland	

This Company offers the following advantages:

1st. When the premium is over fifty dollars annually, one-fourth may be paid in cash, and three-fourths on a secured note, at twelve months, with six per cent interest; or it may be paid half yearly, quarterly, or monthly.

2d. Parties taking life policies, and paying fifty per cent of premium in cash, and those taking policies for a short period, and paying cash per cent in cash, (of over fifty dollars per annum) may give their individual notes for the balance, if satisfactory to the officers.

Whole number of policies issued in 33 months, to the 1st of January, 1848, 4157.

Whole amount of premiums thereon, $641,314 82.

Dividend of profits, January 1847, 35 per cent.

This Company has now been about 2 1-2 yrs in operation and it has gratifying circumstance, that its progress has fully tested the principles adopted for its management, and thus far more than realized the most sanguine expectations of its friends.

Its remarkable amount of business, which is without a parallel in the history of Life Insurance, shows that it is gaining in public confidence; and that there is an undiminished disposition in the community to avail of its beneficent operations.

ROBERT L. PATTERSON, Pres't.
SAM'L C. MILLER, Sec'y.

Kirkbride's Tattersall's HEAVE POWDERS!

A SAFE, CERTAIN AND PERMANENT CURE for *Heaves, Broken Wind* and Chronic Cough. *Cattle* and horses are with the greatest ease, and in a few days, made perfectly free from the disease.

Soundness of the Animal's Wind,

This certainly is the most remarkable [illegible] ever offered to the public. We are in the United States to prove every fact that we have stated and to satisfy completely every inquirer. Upon this condition we will warrant to cure any horse with the heaves in a few days, and to keep him free from the disease for one year, if directions are strictly followed.

New York, Nov 1 1847

Messrs A H Gough & Co.

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse of mine, which was troubled with the heaves to a considerable degree, and I had much to dissuade me from the wisdom of attempting to cure him, and reasons for such did not, in fact believe there were any medicine better for this complaint than this. I had been in the habit of using many expensive powders with horses. But justice to you and your *valuable remedy* requires me to say that that *one package cured* the animal of the aggravated case of Heaves as I ever saw, and he will to-day perfectly well. I shall ever be your recommending friend.

Respectfully, Ed FLOYD, 189 Laurens-st

Messrs A H Gough & Co—Gents I bought, about six weeks ago a package of Heave Powders to administer to a favorite horse, who had been troubled with heaves for one & a half years. His case was of a very bad one, and no severe as to incapacitate him from half the usual labor, and he resisted all the remedies ordinarily used for this disorder, these had no effect but to stay diminish the violence of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever it was. It is a month since he has taken the Powders, and I can warrant him sound

Yours, &c, GEO W DAVIS

Morris, Middlesex Co., N J

GREAT CONDITION MEDICINE.

Besides their specific action upon diseases of the lungs and windpipe, the Tattersall Heave Powders, from their great alterative and restorative properties, are an effectual remedy as unexceptionally proved to be in the humid race for the cause of decomposition of the blood and predisposition to disease. Many a case of founder has been prevented and cured by a few doses of the Heave Powders, when thrown into the food that is given to the beast ill at ease after a hard drive or exposure to inclement weather. They are warranted to cure the worst cough in a few days and will wholly cure a recent cold by the use of 3 or 4 doses. As a condition powder they are unequalled, especially when a tight hide, staring coat, loss of appetite, etc, denote a derangement of the digestive functions prostitute of bots and worms in the alimentary canal, or determine the following results:

Messrs A H Gough & Co—I bought a package of your Heave Powders that I thought of no use for my horse's cough has entirely cured him, but in a different way than I expected. The first loss of Expectorant Powder that I administered brought away an immense number of worms from him, and I believe they were all the cause of the cough, rough coat etc which he exhibited, for the package has entirely cured him. His appetite is good and he is now in prime condition. I phase fully recommend your Heave Powders for worms as well as heaves

Yours, SAM'L ROBERTS.

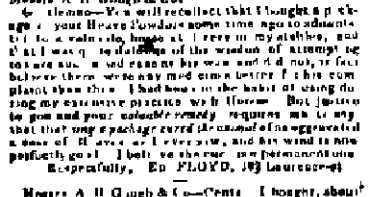
East Hampstead, L I, Oct. 26, 1847.

CAUTION As several imitations of this well known and popular remedy are about being put upon sale under the name of "Heave Cure," "Heave Conqueror" &c., persons are cautioned to beware of them, and to purchase none but *KIRKBRIDE'S Tattersall's Heave Powders*

No Stable should be without this potent preserving agent. Price $1 per package sufficient to worm an ordinary size horse 6 or 8 months.

Sold by A H Gough & Co, 149 Fulton st, New York, & W Fowle, Boston, and by Druggists throughout the United States.

GEO W LADD Agent for Bangor; also for sale by J P INGRAHAM Stewart&w6m Jan 30, '48.



DEAFNESS CAN BE CURED!

COOPER'S ETHEREAL OIL—A prompt and lasting remedy for *DEAFNESS*, also for Pain and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have fully established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal Ingredient is obtained from the Bark of a certain species of Walnut, a new and effectual agent in the cure of Deafness.

Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this OIL In fact, no ordinary and incomputable have been the testimonials in its favor, that the Inventor claims for it the distinction of an Infallible Remedy in all cases, when the Ear is perfect in its formation.

For further particulars, and exhibition of its genuine, see printed sheets in the hands of Agents.
